

Discussion

- AI from December meeting
- STEREO – the book
- Arrival at heliocentric orbit: How do we get ready?
- Future meetings
 - Workshops
 - Full SWGs
- Committee assignments (?)

Action items from Berkeley SWG

Red="completed"

Green="In progress"

- Mirror SSC site to European sites—Rob Wimmer offers Kiel (**SSC**)
- Reprocessing/updating of beacon data needs to be clarified (**SSC**)
- Need time line/schedule for SSC (**SSC**)
- Command/activity history from APL/FOT needs to be on SSC (**SSC**)
- APL early ops time line not up to date (**SSC**) (April 14 meeting at APL)
- **Janet** to work w. **Barbara** about STEREO meeting attached to March LWS Workshop
- Need to decide how to view STEREO data for forecasters (**SWG**)
- Get John Leibacher to give GONG talk at future SWG (MLK)
- Get talks from everyone right away and check on Paris papers; put them all on the Web site (SSC/MLK)
- Special STEREO sessions at SPD, AGU – 3-D modeling (**Janet & Paulette** to work on AGU; **Russ** to work on SPD)
- Need to give out monthly status to PIs (**MLK**)
- 1st press conf what to present? (**SWG**)
- Instrument papers and science papers: need to set dates, format. **MLK** to put together table of contents (Toni already has 1st draft)

STEREO: The Book

- Start writing about time of delivery, submit 6 months later?
- Example TOC (Toni Galvin):
 - Mission Science and CMEs in general
 - Spacecraft, orbit overview and FOT
 - Each investigation given a chapter (order TBD; page limit TBD)
 - SECCHI
 - SWAVES
 - IMPACT
 - PLASTIC
 - SSC: Data flow & EPO
 - Space Weather
 - Modeling
 - 3D visualization techniques (?)
 - Public Data Access and Usage (?) – could include VSO & VHO (?)

Arrival at Heliocentric Orbit

- First press conference – based on what kind of event?
 - ‘Full’ coverage might not be possible (solar min)
 - Goddard Visualization group to be actively involved – Rachel Weintraub is contact
- SSC to post links to team web sites
 - Data
 - Display and analysis tools
 - Contacts on other teams
- Practice data sets: Do we all have them?
- SWG sub-committee to study all this and report back

Possible Workshops

- Kiel: Spring 2005 (May 9-11 or May 16-18 ?)
 - EPO
 - Space weather: Postponed from Feb 2003, but never rescheduled
- Modeling: Possible AGU session (New Orleans) or dedicated meeting?
- Full SWGs
 - Every ~6 months?
 - Next in fall 2004 (where, when TBD)
- RHESSI workshop series would be a nice template to follow after launch
 - Overall chairperson
 - SOC for individual workshops

Hamburg Planetarium

Possible SWG committees

- First press conference: how do we proceed?
- Combined display tools
 - Who will be responsible?
 - Can we use SolarSoft?
- Post-launch workshops (a la RHESSI) – overall Chairperson
- Others? EPO already exists
