

Operations

Peter Schroeder
peters@ssl.berkeley.edu

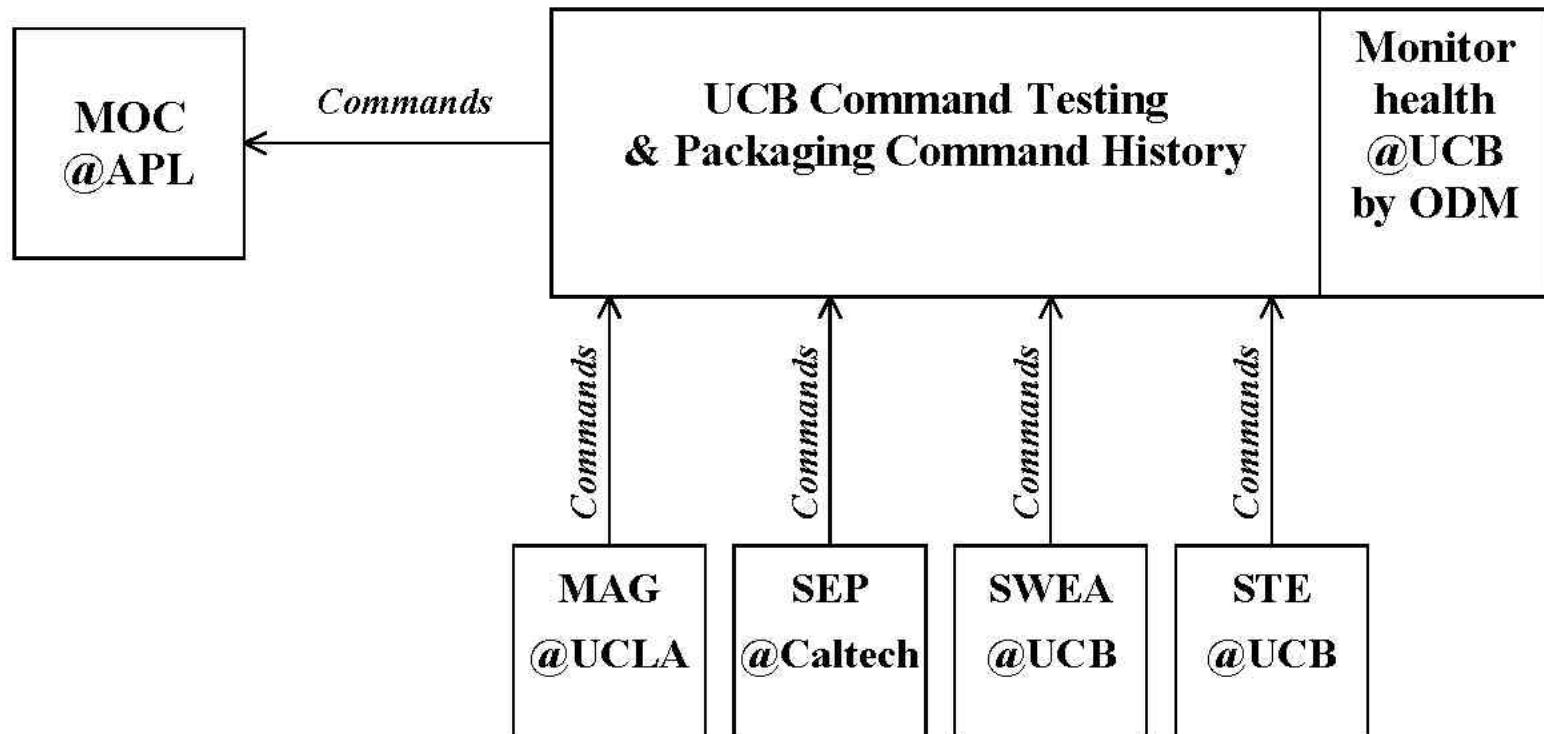

Pre-Normal Ops

- **Includes instrument turn-on and check out, doors, boom deployments**
- **IMPACT Program Manager (Dave Curtis) to be in charge of operations at this point.**
- **Thoroughly discussed in MOC-POC/SSC ICD and IMPACT User's Manual.**

Normal Operations

- **ODM (Operations and Data Manager) at UCB to be in charge of both IMPACT operations and data management. Single contact point for teams and for MOC.**
- **Detailed normal operations described in the IDPU Users Manual.**
- **ODM is principal IMPACT interface with STEREO MOC and SSC.**

Operations

Operations Misc.

- **ODM or deputy will have pager at all times. She/he responsible for contacting correct team contacts (either instrument team members or IDPU contacts) as needed.**
- **List of proper contact personnel to be maintained by ODM.**
- **MOC will notified ASAP if an emergency requires that commands go up during current pass.**
- **ODM will maintain a web-based operations and command log for the entire IMPACT team.**

More On Operations

- **SEP team (via the SEP GSE at Caltech) will be only instrument to send to UCB preformatted MOC/POC interface files.**
- **Other teams will have scripts developed by ODM at UCB.**
- **IMPACT plan based on experience with HESSI with operations, paging, etc.**
- **Also, UCB has experience using SPICE from work on Mars Global Surveyor.**
